

ABORTION?

There are few subjects that are as emotionally charged as this one. And what makes this even more difficult is when we are forced to face this question in the context of rape or incest. However, as tough as it may sound, we must be VERY CAREFUL not to allow our circumstances to “color” our understanding of the Truth in a particular area. Unless the Bible teaches that the Truth or the ethics in a situation is to be directly dictated by that situation... we must seek to discover the plain Truth of the matter, and then allow that Truth to dictate the ethics and our actions in that circumstance in which we may be found.

Carefully study the following passages from the Bible. Answer each of the questions listed with the passages. The answers to the following questions can be clearly seen within the passage. As you locate the answer within the Bible verses given, compare the Bible's answer to how you might have otherwise answered the questions. Remember! We are not looking for human opinions or feelings here. We are looking for God's answer to these important questions!

1. Jeremiah 1:5

15. Some medical questions?????

1. If the law and medical science says that a person can be declared “legally dead” when they no longer have a heartbeat, why wouldn’t consistency demand that a “fetus” with a beating heart only 20 days into pregnancy be considered “alive”? _____
2. If the law and medical science says that a person can be declared “legally dead” when they no longer have measurable brainwaves, why wouldn’t consistency demand that a “fetus” with measurable brainwaves only 6 weeks into pregnancy be considered “alive”? _____

Yes, the Bible clearly teaches that God knows us for the very moment the egg is first fertilized and we begin the formation process. Genetically, we ARE ALL that we will ever be, the moment the egg is first fertilized in our mother’s womb. It is then that God, in the womb, puts our spirit or soul within us. The Bible speaks of us as ALIVE within the womb! Therefore, abortion is the taking of that life! Plain and simple.
